Save time and money!

BlueCare is great for those times when you need to see a doctor but can't find the time, feel too sick to leave the house or are traveling.

BlueCare costs less than urgent care and ER visits, and is an easier way to treat non-emergency, common conditions like:

- Sinus infections
- Cough, cold or flu symptoms
- Rashes
- Allergies
- Bladder infections
- Pink eye
- Mild stomach bugs

You can also use BlueCare to get a prescription or to check in with a doctor if you need a follow-up visit.

As with any medical service, follow the doctor's advice. If the BlueCare doctor tells you that you should go to a clinic or hospital to be treated in person, you should do so.
